Cash Bases Flip Lid

- Professional flip-lid cash drawer with robust steel design
- Cost-effective »CostPlus« and high-quality »CashPlus« versions
- Removable insert with 8 coin and 6 banknote compartments (»CostPlus«)
- Various size and fitting options available (»CashPlus«)
- Standard interface for Epson and Star printers

In its »CashPlus« variant, the Flip Lid cash drawer offers robustness and reliability in all applications, which it particularly demonstrates after years of operation at cash desks with high throughput. While the standard version has a width of 460 mm, it is also available in 490x172x109 mm. The dual locking system guarantees high ergonomics and additional security.

The drawer's cash insert can be removed as whole, or the coin and banknote compartments separately (optional); the coin compartments can be replaced with weighable cups. Of course, you can also order a lockable lid. Differently equipped variants of the »CashPlus« series - with several steel and plastic inserts, various surfaces and mounting options, and versions with or without voucher compartments and theft protection - provide you with all the flexibility you need.

• Many other versions available	

In order to meet various customer demands in a more flexible way, the Flip Lid cash drawer is both available as »CostPlus« and »CashPlus« variant. Both versions offer many features and a space-saving interior design while various fitting options will convince you as well as your customers:

Also known as Modular, the popular Flip Lid cash drawer lives up to its name: The robust yet compact design of this top-lid cash drawer has proven very successful over the years. The »CostPlus« variant has dimensions of merely 460 x 180 x 100 mm and comes with a removable cash insert with eight coin compartments and four standard banknote compartments that can be expanded to six compartments individually. The optional lid brings security to transport and cashier changeovers while providing the insert a more ergonomic appearance. The cheque compartment can even be used while the drawer is closed.

Information – CostPlus Product Range

The »CostPlus« product line offers cost-effective entry-level variants of the Cash Bases product range. The drawers are designed for all basic requirements of a point of sale and offer

an attractive price-performance-ratio. They include a standard receipt printer interface and an interface for a PC or cash register.

Cash Bases Micro

- Robust cash drawer with flip-lid
- Removable insert with 8 coin and 4 banknote compartments (optionally up to 6)
- Fully extendible ball-bearing telescopic slides for smooth, long-term use
- Various fitting options
- Dimensions: 453x225x130 mm (WxDxH)

lockable lids for inserts and various locking systems. The cash drawer features a cheque slot that is also accessible when the drawer is closed. The high-quality 3-position lock (optionally 2-position) offers manual lock/unlock and emergency open functions for more security.

In accordance with its space-saving concept, this cash drawer can be mounted under the counter (mounting bracket optional) or on top of it as a standard option for a more efficient and secure placement. A standard interface for almost all common POS printers and colour options in black and white help to integrate the drawer into the most demanding environments.

The Micro from Cash Bases offers a unique design that combines a compact flip-lid with the functionality of a front opening cash drawer. Its compact size makes it the perfect solution for confined spaces where the comfort of a drawer is essential.

A reduced depth of merely 225 mm and robust steel housing allow for a large range of applications. Its convincing design offers decisive advantages in both use and maintenance, which is essential for successful operation for many years: ball-bearing telescopic slides ensure a gently opening and closing drawer, even at peak hours. A quick release mechanism makes it easy to remove the drawer.

The interior is optimally sectioned with a removable cash insert consisting of eight coin compartments and four bank note compartments. Various optional cash inserts made of steel or plastic are available with different compartment sections, as well as weighable coin cups,
