Mogler 29 E-KE-D

- **Extremely compact cash drawer in robust all-steel design**
- **Narrow dimensions: 285x415x115 mm (WxDxH)**
- **Removable cash insert with lockable lid (optional)**
- **Eight removable coin inserts, up to six banknote compartments, one voucher compartment**
- **Standard interface compatible with almost every receipt printer**

Like all other Mogler cash drawers, the 29 E-KE-D also features fully extendible, ball-bearing telescopic slides, a patented locking mechanism and a proven, robust design for extra long service life. The cash drawer is equipped with a cylinder lock with three positions: operation, locked and manual opening. This system ensures excellent ergonomics combined with extra flexibility and security during peak hours.

The drawer is suited for both counter-top placement and under-the-counter mounting. Connect the drawer directly to almost any receipt printer using its integrated RJ12 interface or use one of its connectivity modules with serial, parallel or USB interfaces. The 29 E-KE-D can even be used in series with other drawers. The 12/24 V power supply provides your customers with the proven flexibility of Mogler products.

We offer this cash drawer in attractive light or anthracite grey. Additional colours are available on request using Mogler's flexible sales concept. Optionally, this compact cash drawer is available with a pressure lock, which is often sufficient at cash desks with limited space and no additional peripherals.

Alt offers eight removable coin inserts in a space of merely 285 x 415 x 115 mm (W x D x H) that can be optionally replaced with weighable coin trays or Inkiess trays. Furthermore, this cash drawer features four inclined banknote inserts that can be upgraded to six inserts and a cheque compartment beneath the coin insert. The user simply inserts vouchers from the outside without needing to open the drawer. The design even offers sufficient space for a separate coin roll compartments. Optionally, the drawer comes with a removable cash insert that has a lockable lid for secure transport and frequent changing of cashiers.

Mogler 34 E-KE-K

- **Electric cash drawer in robust all-steel design**
- **With removable folding insert for secure cash transport**
- **Compact design: 340x400x118 mm (WxDxH)**
- **Eight weighable coin trays, four horizontal banknote compartments, two voucher compartments**
- **Standard interface compatible with almost every receipt printer**

Like all other Mogler cash drawers, the 34 E-KE-K also features fully extendible, ball-bearing telescopic slides, a patented locking mechanism and a proven, robust design for extra long service life. The cash drawer is equipped with a drill-proof cylinder lock with 100,000 different locking-positions. Three modes: operation, locked and manual opening. This system ensures excellent ergonomics combined with extra flexibility and security during peak hours.

The drawer is suited for both counter-top placement and under-the-counter mounting. The top cover already contains the necessary mounting holes for installation. Connect the drawer directly to almost any receipt printer using its integrated RJ12 interface or use one of its connectivity modules with serial, parallel or USB interfaces to connect it to a PC. The 12/24 V power supply also provides your customers with the usual flexibility known from Mogler products.

We offer this cash drawer in attractive light grey or anthracite. Additional colours are available on request using Mogler's flexible sales concept. Optionally, the drawer is available with brushed steel or leather-coated front and a pressure lock.

The Mogler 34E-KE-K offers your customers security and efficiency for confined spaces combined with a design that wins over even the most demanding users. In a space of only 340 x 400 x 118 mm (W x D x H) this robust cash drawer houses eight removable, weighable coin trays, four horizontal banknote compartments and two voucher compartments. Its two cheque slots, used to store different vouchers, are located beneath the coin compartment. The user simply fills them with different vouchers from the outside, without opening the drawer.

A special extra of the 34E-KE-K is its robust metal cash insert that is foldable. The insert is split into two parts by a durable hinge that allows cashiers to fold it for transport. The 2 position cylinder lock is then used to secure the box, while an exceptionally sturdy carrying handle makes transport easy. Its neatly arranged banknote compartments are equipped with stainless steel note clips that ensure the notes remain in place during transport.
